- DM2 is launching a "gap year" training program to prepare young adults for a life of service in college, career and beyond. In one short intense year 3D Training Center, as this new program has come to be called, is designed to disciple, develop, and disperse those who enroll in this course.

Is this a pressing priority? Yes, now more than ever, we see this as an urgent need. Churches across the land are bleeding. They are not simply bleeding members, but the kids who have grown up in their congregations are walking out into life and never looking back. We are losing our youth and the future of the church at an unparalleled rate. The war is on. We believe that the enemy's dark agenda to destroy churches is focused primarily at picking off youth and young adults before they have a chance to become convinced that the word of God is relevant to answer the basic questions of life. Young people are simply walking away from Christianity. While there may be a myriad of reasons for this, we believe a big reason is they don't believe the church and the scriptures have real answers. We know this is not true, but somehow this generation sees a disconnect.

We do not pretend to have a silver bullet, nor do we arrogantly believe we have all the answers. But since the start of DM2, God has blessed us with a doorway into this generation. By God's grace we have been effective in answering questions that the up-and-coming generation is asking. For some reason they resonate with our straightforward expositional approach to teaching. Because of this, the directors of DM2 are resolutely compelled by the Lord to boldly redouble our efforts to train up this generation.

*More on Reverse*

By ministering to young adults now, at the beginning of their journey, we hope to give them a solid foundation that will prevent them from losing their way and at the same time prepare them to reach their generation. If we can raise up a solid raft of well-trained and properly tooled disciple-makers, we can give our churches a gift that will keep on giving for generations to come.

What will we teach? Over the span of one year, we will teach students our 10-year field-tested curriculum that has been shown to be a life-changer around the world. Not only will students gain a thorough understanding of the word of God, but they will also learn to evangelize the lost and disciple new believers.

What is needed to see this goal realized? I would say that more than anything, we need you to stand shoulder to shoulder with us in concerted prayer and supplication. The enemy will not want this project to succeed. As you petition God for this project, pray concerning scholarship, school, and staffing funding. We are currently recruiting a topnotch staff who will need to be fully sponsored so they can focus on the lives of the students God is sending our way. For this inaugural year, we are aiming for God to send 40 students our way. Unless God provides other facilities, we will put these students into commercial apartments.

Do you know a young adult who could benefit from this program before heading off to university or a career? Do you have a passion for seeing key young adults trained as disciple-makers who will be effective in service for the next 40-50 years? Do you feel the same burden for our churches we feel as we see them fading into the sunset? If so, then by God's grace let us team together to make a difference. Let us not passively stand by wringing our hands complaining about the lost condition of millennials or generation X.
